

BOOM
TRIKES
RIDE YOUR DREAM
www.boom-trikes.com

2020

Just take off the workwear, put on the biker clothes and ride with a BOOM trike into another world. No matter if business man or employee, if young or old, if man or woman, if single or a family man – on a trike, everyone can leave the daily routine behind. To feel the wind in your face, to glide through the landscape, that's something that makes you feel the freedom on 3 wheels. As unique as the riding sensation is the triker community. Status symbols are not counting anymore, it doesn't matter what you are doing in your "normal life", the only thing that counts is the passion of riding a trike, to have fun together and to enjoy life.

TRIKE VS. BIKE

The last years, the trike sector experiences an increasing popularity. The reasons are that compared to bikes, trikes are non-tilting, have a reverse gear and can be driven with a car license. Our models Mustang, Mustang Xtreme and Mustang Family are equipped with a big trunk, ideal for two persons travelling with lots of luggage.

Compared to a bike, not only the driver, but also the co-driver is well integrated in the vehicle and is seated in an extremely comfortable and protected way. To ride a trike not only represents pure freedom, but compared to most of the bikes, a trike „Made in Germany“ is also a good investment with high value.

LEADING EDGE BY EXPERIENCE

A big and representative survey (Comparison of the biggest European trike manufacturers) among the readers of the TRIKE-Magazin confirms our work:

BOOM Trikes **Quality:** N° 1
 BOOM Trikes **Design:** N° 1
 BOOM Trikes **Resale value:** N° 1

TRIKE Magazin (Source: TRIKE-Magazin)

The company founders W. Merkle and H. Böhm in the early years.

BOOM TRIKES
 PRODUCES EXCLUSIVELY
“MADE IN GERMANY”

TRIKE MANUFACTORY STABLE MARKET VALUE BY HANDMADE QUALITY PRODUCTION.

Our vehicles are developed and constructed in our own manufactory in Sontheim, a Swabian village in the South of Germany.

Before the final assembly however, all needed “BOOM parts” have to be elaborately handmade for about 120-200 hours (depending on model and equipment).

Not till then, the vehicles will be finished with caring attention to detail.

Consequently, in general about 250 hand working hours are necessary for each BOOM trike.

Our vehicles may not be as plain perfect as a car which is made within just 4 hours by a robot, but the handwork makes them much more precious, exclusive and of lasting value.

BOOM Trikes with all the stainless steel parts are not only long-living, but are made for eternity.

Our self-imposed high quality management system, organized according to the rules of ISO 9001 and controlled each year also guarantees the constant high quality level of our products.

BOOM Highway 1990

BOOM TRIKES 1989-1991.

BOOM TRIKES 1992-2013.

About 30 years ago, in September 1989, the construction of the first prototypes was started. On 29.01.1990, Christine and Wolfgang Merkle as well as Hermann Böhm founded the one-man company "BOOM Exklusivfahrzeuge" which later became BOOM TRIKES Fahrzeugbau GmbH. Since 1992, after a move, the head office is located at Sontheim/Brenz, a Swabian village in the South of Germany.

BOOM TRIKES established itself very quickly on the market and was able to double its turnover every year in the early days.

1995, after over 700 sold units and a 40 % market share, BOOM TRIKES achieved the market leadership. In 1997, as first trike producer, BOOM TRIKES was certificated in accordance with the DIN EN ISO 9001. An extremely high quality and security level was achieved. Until today, this quality level is severely controlled every year.

In 1998, the next obstacle, the European homologation for all BOOM TRIKES models, was surmounted. From this moment, BOOM TRIKES was able to deliver all trike models to the European market. Also outside of the EU, BOOM TRIKES delivers vehicles to all over the world. BOOM trikes do not only drive in the Alps, but also in Africa, Australia, the Andes or on the highways overseas.

BOOM trikes are not only means of transportation, but became more and more a life philosophy, related to Harley Davidson, but on 3 wheels. A philosophy of life that unites freedom and adventure, the desire to travel and closeness to nature.

To experience the trike fascination together with their families and friends represents more than a hobby to many trikers – it is simply their life.

The success of BOOM TRIKES is also due to the fact that each time at the right moment, the right products have been launched to the market.

So now the company offers 4 different trike models. Director Wolfgang Merkle: "Our efforts for the future are: offering our trike customers a large range of new vehicles with the best cost-benefit perspective on the market."

Another milestone was set by building the new manufacturing facility in Sontheim an der Brenz. BOOM TRIKES profess themselves clearly to the manufacturing base Germany. All more than 10.000 trikes built so far are without exception made in Germany. All BOOM trikes are developed and constructed in our own construction department. The trikes can be built in series in the new and roomy assembly hall with shorter distances for the workers. Spray painting is done on site. That means that special requests can be realized very fast. In the big storehouse, more than 7.000 different component parts are available in sufficient quantity for the production and shipping.

All BOOM trikes are developed and built in our own construction department.

Nowadays, about 30 employees are operating at the head office of BOOM TRIKES in Sontheim and 40 more collaborators are working in a subsidiary, where spare parts are made.

Over 200 suppliers are providing parts to BOOM TRIKES. The BOOM TRIKES network covers approx. 100 dealers and locations, half of them in Germany and the other half all over the world. Altogether, according to Wolfgang Merkle, "approximately 300 persons are working with the product BOOM TRIKES, and this already since 30 years. A reason to be really proud!"

The BOOM TRIKES Manufactory since 2014.

COMPREHENSIVE STANDARD EQUIPMENT "BASIC" (ALL MODELS)

- GRP-bodywork with big trunk
- Comfort fork Ø 48 mm with 2 Koni gas-pressurised shock absorbers
- 10 different standard colours, painted in gel coat technique
- Sport seats with lateral hold, waterproof
- Front wheel 170/60-17 on 5,00x17 alloy rim, Compressor design chrome
- Rear wheels 295/50 on 10x15 alloy rims, hole pattern design chrome
- Bilstein gas-pressurised shock absorbers
- Brake pedal in black
- Exhaust system Sport 4in2, polished stainless steel
- Dual-circuit integral brake system
- Brake booster, front and rear disc brakes
- Headlights bracket in polished stainless steel
- 2 additional headlights mounted on the fork
- Sport Touring handlebars in polished stainless steel, Ø 22 mm
- Hazard warning lights
- Instruments unit with speedometer, revolution counter, trip recorder, voltmeter, water temperature gauge, clock
- Vehicle tool kit, first-aid kit with warning triangle
- Waterproof electro-safe
- Chrome grips, chrome pedal linings
- Rearview mirrors chromed
- Passenger arm rests
- Handbrake faced with stainless steel and stainless steel grip
- Preparation for navigation system
- 12 V socket
- ABS prepared
- Automatic brake proportioning front and rear wheels
- Steel braided brake lines
- Warning waistcoat

Big trunk:
for all models.

Wide-base tyres: Rear 295/50 with rim protection on 10x15 rims.

Frame: Plastic coated with car standards (salt spray test 600 h). Increased corrosion protection by 4-phases handling. Thick wall-thickness. Buckling resistant and optimal riding quality.

Modern instrument cockpit:
Digital display of all necessary information, with diode technique.

Handbrake: Faced with stainless steel and stainless steel grip.

Attachment parts: Over 50 new stainless steel parts instead of galvanized or coated parts, as stainless steel tank, expansion tank, engine holder, gear box holder, engine facing, coolant facing, handbrake facing, air shields, miscellaneous small parts as well as all mounting parts.

Chassis: Alloy semi-trailing link axle with adjustable Bilstein threaded suspension and 3 selectable springs: soft, medium, hard.

All models are ABS prepared and available with ABS for an extra charge (not for Xtreme 2,0 l).

Electro-safe: Waterproof and neatly stored electronic.

ADVANTAGE EQUIPMENT "ADVANCE" (ALL MODELS)

Includes "Basic" equipment and additionally:

- Exhaust system 4in4, polished stainless steel
- Leg protection bar and luggage rack, polished stainless steel, Ø 60 mm
- Stabiliser (rear axle)
- Comfort fork Ø 60 mm, polished stainless steel with 2 Koni shock absorbers
- Main headlights, design "Bullet"
- Additional headlights 6,5"
- High performance brake system (rear) with ventilated brake discs and big brake calipers (for Xtreme 2,0 I Racing brake system)
- Front wheel 200/50-17 on 5,50x17 alloy rim, Shark design chrome
- Rear wheels 295/50-15 on 10x15 alloy rims, Shark design chrome
- Rear wheels 295/30-18 on 11x18 alloy rims (for Xtreme 2,0 I)
- BOOM rear spoiler, black
- Comfort seats sewn by hand
- Bi-Colour standard colours painted in gel coat technique
- Rear mudguards optional in design "Shark" or design "Style" (Style serial for Xtreme 2,0 I)

OUR THREE EQUIPMENT VERSIONS:

- Basic** It's the basic version, without any extras, however with serial big trunk, Aluminium comfort chassis, wide-base tyres, and much more.
A comprehensive standard equipment!
- Advance** It's our most chosen version with numerous extras. The Advance version offers a **top price-performance ratio!**
- Ultimate** It's our **full equipment with all extras!** (excluding individual extras). Attention: No other trike manufacturer worldwide has such a comprehensive full equipment package like BOOM with alloy chassis, Jet Light system, Liftomatic, premium VDO instruments and much more.

In case of additional equipment of the "Advance" version, the basic equipment is not applied.

MUSTANG TRIKES

COMFORTABLE SPORTY WAY TO TRAVEL

The Mustang ushers a new era in the trike sector. Not only thanks to the compactness, mobility and driving agility but also due to the extremely comfortable seating position and the extraordinary design, the Mustang is the trike everyone is talking about. The Mustang is the best-selling trike of the BOOM product range and it is also available as Mustang Xtreme and Mustang Family (3 seats). Because of the deep and secure seating position, the co-driver is sitting well-protected behind the driver and is at the same time able to glance over him. On request, the seats can be bolstered up free of charge for smaller

passengers in order to allow them to have the same good view despite of the low seat position. Since model year 2016, the Mustang disposes of a standard convenient trunk with 240 l storage space.

As short version: available for drivers with a body height of approx. 160 cm to approx. 180 cm.

As long version: for drivers with a body height starting from 180 cm, a frame extension is recommended.

LARGE STORAGE SPACE

Big 240 l trunk - standard for all Mustang models.

BEING COMFORTABLY SEATED

Comfortable, waterproof seats sewn by hand are standard for our versions "Advance" and "Ultimate".

EASY TO MAINTAIN

Liftomatic: with only one hand movement, the complete technology is accessible for maintain services (optional extra).

Shifter (automatic)

Equipment "Advance Plus"

Optional extras: Rear wheels "Shark" design 11x18", BOOM/VDO premium instruments unit.

MUSTANG FAMILY

The Mustang is also available as Family trike with 3 seats. Based on the established previous Family II Muscle model, the chassis has been re-designed. When you drive with only two persons, the co-driver can sit centrally. Due to the folding passenger protection bar, getting on or off the trike is quite easy for the co-driver. The width of the passenger seat was enlarged by approx. 10 cm. The windbreak and the center of gravity are optimized by considerably deeper positioned seats. The

standard trunk of 240 liters and the big luggage rack of the Mustang Family trike offer storage space for the whole family.

As short version: available for drivers with a body height of approx. 160 cm to approx. 180 cm.

As long version: for drivers with a body height starting from 180 cm, a frame extension is recommended.

The Mustang Family, too, is upgradable with a Liftomatic.

MODIFICATION SYSTEM FOR FAMILY MUSTANG SEATS

All Mustang Family models will generally be delivered with 3 individual seats ①②③ with continuous seating area. Also standardly delivered: the movable head support ⑥ as well as the 3 seater protection bar ⑦. Therefore, as standard version, the trike can be driven by 1, 2 or 3 persons.

In order to offer a higher comfort to our customers, we also provide as an option the exchangeable seat (for 2 persons) ④ which will be delivered together with a 2 seater protection bar ⑧.

MUSTANG FAMILY ADVANCE PLUS

Optional extras: BOOM/VDO premium instruments unit

Since the year 2000, BOOM TRIKES has regularly been doing test rides in winter with all models of the next season. The trikes are driven for about 10.000 km under the toughest conditions and the outcome of these extreme tests are then incorporated into serial production.
Constructed by trikers for trikers.
